

The International Myeloma Foundation is pleased to announce the Miles for Myeloma 5K Run/Walk for 2022. We have heard the suggestions from the past few years and are happy to announce that this year, the 5K has been moved this year to beautiful [FDR Park in South Philadelphia](#). FDR Park is a recognized as a National Historic Site and features baseball fields, playgrounds, and a reservoir across its 348 acres. It even holds a now-defunct full 18-hole golf course! Moving the 5K to this location will provide expanded parking opportunities, easy access to the Broad Street Line of the SEPTA subway system, and a flatter, faster road course that showcases all that the park has to offer. If the Phillies are in town, it's also easy to make an entire day of it with Citizens Bank Park right across the street! Sadly, they will be out of town this year, but maybe next year!

We are especially excited to move the event to FDR Park in 2022 because the park has just received a \$2 million grant to build a new Welcome Center and make enormous advancements to its facilities (see more [here](#)). We look forward to many years at FDR Park, supporting its development and continuing to grow the Miles for Myeloma community.

We look forward to seeing you there!
